way Company for the third week in the present month are estimated at \$1,473,-273, as compared with \$1,205,706 for the third week of August, 1915. This shows an increase of \$267,576, or 21.29 per cent. An increase of \$14 per cent is estimated for the period from July 1 to August 21, 1916, over a similar period last week of \$263,113 as against \$8,963. last year, \$9,693,118, as against \$8,963,-233, an increase of \$729,885.

Shifting the Gold Holdings.

Before the war the holdings of gold in the great central banks of Europe, Bank of England, Bank of France, Bank were \$680,000,000 in excess of the holdings of the yellow metal in the United sugars.

Three of these great fiscal institutions have been shifting the metal to the United States as fast as it could be sent with safety, and today we are but \$50,000,000 short of the aggregate in

Thirty per cent of the world's gold s now in the United States and, if Thirty per cent of the world sold is now in the United States and, if indications are not deceptive, several large blocks will be imported before the score is settled, for the great loans that have been made to the allies have not been of cash, but of credits which mean the same thing, save that the cash must be expended in making for American prosperity

In two years the gold supply has increased \$660,000,000. August 1, 1914 we had \$1,887,000,000 of gold in the United States; a year later, \$2,006,000,000, and August 20, 1916, \$2,550,000,000.

This has been one of the leading indications of how we have prospered as a result of the war.

Another evidence is found in the enormous sales of French and English investors' holdings of American securities.

Country Banks Will Protest.

There are some 14,000 banks rep sented in the American Bankers' A. ciation membership that are loca outside of reserve cities. The asso tion meets at Kansas City in Septe ber in annual session, and it is expecthe country banks will enter vigor protest and perhaps organize to take action against the collection system of the federal reserve board and its regional banks.

There will also be more or less plain act, as very many bankers still hold a grudge against the system by reason of their being compelled to carry a large

their being compelled to carry a large percentage of reserves there without interest, thereby losing the 2 per cent interest, thereby losing the 2 per cent interest which many big banks in New York are willing to pay.

Further protest will be directed against the purchase of paper in the open market by the regional banks in competition—with member banks which bankers contend, is against the intent and purpose of the law, which was intended as an aid to member banks and not as a business competitor. and not as a business competitor.
The owners of the federal reserve

country—have literally furnished the

Tulsa, as the murder was committed by another known man, and so far as known Colligan was never in Oklahoma.

The police say young Colligan was injured in Pittsburgh in a raliroad accident about ten years ago and disappeared from the hospital to which he was sent. The family has spent much money in the search for him. The name attracted the father's attention in the present situation, and he came here with his daughters and a lawyer. The party saw the detained man and identified him. The police will recommend that Colligan be released.

To MOUNT MACHINE GUNS.

First Consignment of Motor Trucks
Arrives at Border for Army.

SAN ANTONIO, Tex., August 28.—The first consignment of motor trucks upon which to mount the Lewis machine guns has been delivered at the United States arsenal here. It consists of 115 trucks in eighteen cars, and the order calls for something over 250 trucks to be used for the purpose. The army has more than 300 of these machine guns, nearly all of which have been sent to the southern department and distributed among the troops along the border and in Mexico. While the guns was never in Oklahoma.

A trough of low pressure that began to develop on the 25th is passing off to sea over Atlantic coast districts; an area of high pressure of considerable marginitude extends from lower Michigan to the Texas panhandle.

Numerous showers and thunderstorms have occurred throughout the middle Atlantic and New England states and the Ohio valley.

The temperature is from 10 to 12 degrees below the seasonal average in Illinois, Missouri, Iowa and Kansas; also in the Ohio valley.

The weather in the Atlantic coast districts will clear this afternoon or tonight, and generally fair weather is probable tomorrow, except in the east will fail and south Atlantic states, where showers are indicated. It will be somewhat cooler tonight in Atlantic coast of its trucks to be used for the purpose. The middle Atlantic coast light northwest to north winds and showery weather to the Grand Banks.

Tide Tables. (Compiled by the U. S. coast and geodetic survey.)
Today—Low tide, 1:56 a.m. and 2:20 p.m.; high tide, 7:41 a.m. and 8:03 p.m.
Tomorrow—Low tide, 2:37 a.m. and 2:56 p.m.; high tide, 8:18 a.m. and 8:39 p.m. been sent to the southern department and distributed among the troops along the border and in Mexico. While the guns were not originally intended to be mounted on trucks, as they are light and easy to transport, it was decided that they were made more effective by having them mounted on speedy motor trucks. It was announced at headquartrucks. It was announced at headquar-ters today that the trucks would be equipped and shipped to the various camps along the border as soon as pos-sible.
